

Climacoustic®

High  
density  
28kg/m<sup>3</sup>

# Climacoustic® Duct Roll

Climacoustic Duct roll is the ideal insulation for the exterior of rectangular and round sheet metal ducts, spaces and surfaces where temperature and condensation must be controlled. Climacoustic Duct roll has a premium density of 28kg/m<sup>3</sup> and a strong foil facing.

Made using recycled glass and with ECOSE® Technology, it contains no added phenol, formaldehyde, acrylics or artificial colours.

**KNAUFINSULATION**  
*it's time to save energy*

## Climacoustic® Duct Roll

Climacoustic Duct roll doesn't look or feel like any insulation you've ever experienced, that's because the natural brown colour represents a level of sustainability and ease of handling never before achieved in New Zealand. The colour and super-soft feel of this glasswool comes from ECOSE® Technology, a revolutionary sustainable binder, which does not contain the petro-based chemicals, added formaldehyde or artificial colours commonly used in other insulation.

- ✓ Great thermal performance
- ✓ Absorbs sound
- ✓ No added formaldehyde

Features	Benefits
Rolls knit together	Prevents heat loss
Made with ECOSE Technology	Low dust, easy to cut, softer to touch, faster to install
Made using recycled glass	Sustainable product with inherent fire performance
Premium 28kg/m <sup>3</sup> density	Superb acoustic performance

Product Code	R-Value (m <sup>2</sup> K/W)	Density (kg/m <sup>3</sup> )	Thickness (mm)	Width (mm)	Length (m)	Area per roll (m <sup>2</sup> )	Rolls per Supakube
2400374	R-0.7	28kg	25	1200	18	21.6	18
2400372	R-1.5	28kg	50	1200	9	10.8	18
